

PIPER™

Stack
SEATING

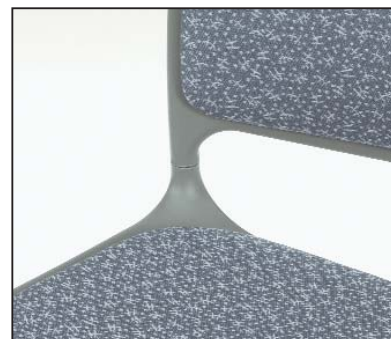

Piper High-Density Stack Chairs deliver the ultimate in durability and functionality. It is an ideal choice for offices, auditoriums, training and meeting rooms, cafeterias and more. With its color-infused polypropylene seat and back, and solid steel chrome or powder-coated base, Piper has the strength to resist wear, even in heavy-use conditions. Piper also meets the toughest standards set by BIFMA.

Piper is designed to fit into any office environment. These chairs are available in 18 different colors and offer a variety of glide options to accommodate any application. The handle integrated into the back allows for ease of movement and stacking. A dolly is also available for convenient stacking and storage, designed to allow 38 stacked chairs to pass through a standard doorway.

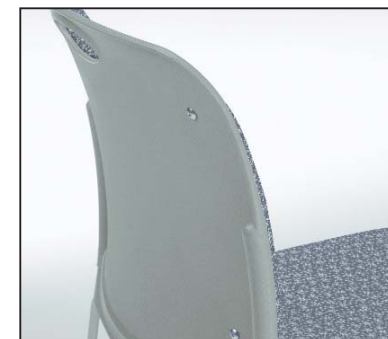

Convenient tablet arms can be added with your choice of laminate finish. Seating clearance is 14". Tablet arm dimensions are 20 1/2" long and 12" wide.

Stainless steel, black PVC, clear polycarbonate, ganging polycarbonate and ganging stainless steel glide options are available for Piper Seating.

Order Piper with upholstered seat and back pads for added comfort. Seat and back pads are easily field replaceable.

Upholstered seat and back pads can be easily replaced or reupholstered by removing the fasteners.

Piper's flip-up tablet arm is available in a right or left-handed model, and is easily field installable.

Convenient, built-in handle allows user to move or lift chair and stack with ease.

Product fabrics and finishes shown are reproduced as faithfully as possible within the limitations of the printing process.
